The Ritz Carlton Hotel – **Moscow**

AntorMICE workshop

Introduction

Following a decade's worth of consecutive years of growth and success, we are pleased to announce the **12th AntorMICE Workshop** which will be held in **Moscow's Ritz-Carlton Hotel** on **Thursday 26th January 2017**.

The **AntorMICE Workshop** has now firmly established itself as **Russia's leading MICE industry event**, exceeding expectations with every year that passes. The Russian MICE Market continues to buck the growth trend in Europe's fastest growing outbound tourism market, with expert estimates suggesting that it is now worth in excess of Euro 600 million per annum with Russian MICE outbound ranking within Europe's top ten in importance.

The **AntorMICE Workshop** is a one-day event which brings together a strong and effective mix of **MICE Industry Suppliers and Corporate Travel Buyers** and covers a broad range of industry categories and classes including **Conferences, Incentives, Meetings and other business-related travel**. Make sure you mark **January 26, 2017** in your schedules so as not to miss this wonderful opportunity recognized by the industry as the year's most important networking event.

The **AntorMICE workshop** is an excellent and time-tested way of assisting you to introduce your product to the **key MICE players in Russia** and will provide you with a great opportunity for meeting, engaging with and establishing a lasting and profitable relationship with a wide range of Russian corporate buyers, travel houses and tour operators.

During last year's **AntorMICE workshop**, **over 70 different exhibitors** from over **twenty countries participated**. More than **400 visitors** attended the event. We expect next year's event to be even bigger than last year's event.

AntorMICE is supported by the Russian Union of the Travel Industry (RST) and the Association of Business Travel (ABT-ACTE). The event is widely promoted by our sponsors and partners, namely RATA News, TTG Newspaper, Business Travel Magazine, TourBusiness Magazine, Tourprom and on a large number of MICE-related and other internet portals.
